

ANDRE ROWE

IT Support Specialist · Cloud Infrastructure & DevOps

New York, NY | (516) 968-1816 | rowea190@gmail.com | linkedin.com/in/rowecreates | andrerowe.com

SUMMARY

IT professional with frontline support experience in a 3,000+ user healthcare enterprise: Active Directory, endpoint fleets, HIPAA compliance. Moving up the stack with PowerShell and Python automation, AWS and Azure cloud projects, AWS Solutions Architect Associate in progress, and an M.S. in Software Engineering (DevOps) expected 2027. Targeting cloud support, systems, and junior DevOps/platform roles.

CORE SKILLS

Systems & IT Operations: Active Directory · Windows & macOS deployment and imaging · networking · HIPAA environment compliance · ServiceNow

Cloud Platforms: AWS (EC2, S3, IAM, VPC, CloudWatch) · Microsoft Azure (Functions, Cosmos DB)

Automation & Development: PowerShell · Python · Bash · JavaScript (React) · REST APIs · Git

AI / ML: TensorFlow · NLP pipelines · LLM and multi-agent orchestration

PROFESSIONAL EXPERIENCE

NYU Langone Health via TEKsystems · Service Desk Analyst | New York, NY | Jun to Aug 2025

- Delivered frontline technical support to faculty and staff across medical and academic departments, resolving 50+ tickets per week in a 3,000+ user environment while sustaining 95%+ SLA compliance
- Administered user accounts, permissions, and access controls in Active Directory, supporting security and compliance in a HIPAA regulated setting
- Automated recurring Active Directory and endpoint tasks (account provisioning, group membership, software installs) with PowerShell and Bash, cutting per request handling time by ~40%
- Deployed, imaged, and maintained Windows and macOS systems and configured networking components across 500+ enterprise endpoints spanning clinical and academic sites

DocGo · Field Supervisor, Medical Transport Operations | New York, NY | Aug 2023 to Mar 2025

- Led a team of 12+ medical transport professionals across NYC in a 24/7 healthcare operation
- Owned scheduling, dispatch coordination, and escalations; streamlined processes to improve on-time performance

Assist Ambulance · Emergency Logistics & Dispatch | New York, NY | Jul 2022 to Aug 2023

Pitch (early stage startup) · Product Manager, Contract | New York, NY | Mar 2022 to Dec 2022

TECHNICAL PROJECTS

- **OpenClaw:** multi-agent AI orchestration system in Python on LLM APIs (Anthropic Claude); in development
- **Bayou Alert:** serverless flood warning dashboard (React, Azure Functions, Cosmos DB, Mapbox) on live USGS data
- **Project Volta:** reinforcement learning battery grid simulation (TensorFlow DQN); 30% simulated cut in peak draw

EDUCATION & CERTIFICATIONS

B.S., Computer Science Southern New Hampshire University, 2026

M.S., Software Engineering (DevOps) Western Governors University, expected 2027

UX Design Immersive General Assembly, 2022

AWS Certified Solutions Architect Associate (exam Sept 2026) · Path: HashiCorp Terraform Associate, CKA (2026 to 2027)
