

ANDRE ROWE

Enterprise IT Systems Analyst | Windows 11 Endpoints, Active Directory, ServiceNow | Healthcare

Brooklyn, NY (open to relocation) | 516-968-1816 | rowea190@gmail.com

anderrowe.com | linkedin.com/in/rowecreates | github.com/andre-rowe

PROFILE

Service Desk Analyst who supported users across a 9-site hospital program: handled approximately 65 ServiceNow cases a week, staged 30+ devices a day and completed 10 to 15 on-site swaps a day, provisioning devices with Windows Autopilot inside an Intune- and Entra ID-managed endpoint environment. Handled Active Directory account unlocks, password resets and group membership changes, validated before handoff and wrote clear notes with no patient data. B.S. Computer Science; M.S. Cybersecurity and Information Assurance in progress.

1,000-endpoint program, 9 sites | 30+ staged a day | 10 to 15 swaps a day | Approx. 65 cases a week | ServiceNow, Active Directory

PROFESSIONAL EXPERIENCE

NYU Langone Health (contract via TEKsystems) | Service Desk Analyst | New York, NY

Jun 2025 to Aug 2025

Case study: Windows 10 end-of-support migration

Problem: Windows 10 end of support (October 14, 2025) would leave hospital endpoints without security patches.

Environment: HIPAA-regulated academic health system; clinical endpoint deployment across hospital, outpatient and specialty sites in Manhattan and Brooklyn.

Scale: Program scope: a 1,000-endpoint Windows 11 migration program across 9 sites, including Tisch Hospital, NYU Langone Orthopedic Hospital, One Park Avenue and NYU Langone Hospital, Brooklyn.

Individual volume: Staged 30+ devices a day and completed 10 to 15 on-site swaps a day on clinical units; handled approximately 65 ServiceNow cases a week.

Contribution:

- Supported a six-step deployment process (prep, stage, validate, deploy on site, user readiness, post-deployment support), provisioning devices with Windows Autopilot and using Intune and Entra ID as part of the Windows 11 deployment workflow.
- Validated sign-in, mapped drives, printers and required departmental applications before handoff; confirmed Wyse thin-client stations still connected after each swap.
- Coordinated Windows 11 migrations that could be completed remotely, alongside staging and on-site swaps.
- Handled Active Directory account unlocks, password resets and group membership changes during post-deployment support, worked cases through ServiceNow, confirmed users could work, and wrote close-out notes with no patient data.

Technologies: Windows 11, Windows Autopilot, Intune and Entra ID (used in the deployment workflow), BitLocker-enabled endpoints, Active Directory, ServiceNow, Wyse thin clients.

Outcome: Completed my assignment through its scheduled end. Before it ended, a manager on another NYU Langone team asked me to join his team on a new contract.

Evidence: anderrowe.com/windows11-migration.html (workflow diagram and reconstructed per-device checklist, fictional data)

DocGo | Field Supervisor, Medical Transport Operations | New York, NY

Aug 2023 to Mar 2025

- Supervised crews from a rotating roster of 60+ staff in a 24/7 medical transport operation running about 60 to 80 crews per shift.
- Owned scheduling, dispatch coordination and escalations.

Assist Ambulance | Emergency Logistics and Dispatch | New York, NY

Jul 2022 to Aug 2023

- Dispatched crews for time-critical calls under established protocols.
- Prioritized by urgency from incomplete caller and facility information.

Earlier: 911 Call Taker, Houston Emergency Center; Emergency Medical Technician. The through-line is triage: deciding quickly, from partial information, what gets escalated.

SKILLS AND EVIDENCE

Windows 11 endpoints: staging and on-site swaps; Windows Autopilot; BitLocker-enabled endpoints [Work: Windows 11 case study]

Active Directory: account unlocks, password resets and group membership changes [Work: Windows 11 case study]

ServiceNow ITSM: approximately 65 cases a week; clear close-out notes with no patient data [Work: Windows 11 case study]

Validation and user readiness: sign-in, mapped drives, printers, departmental apps; user readiness [Work: reconstructed checklist]

Thin clients: Wyse stations confirmed connecting after each swap [Work: Windows 11 case study]

Multi-site support: 9-site program across Manhattan and Brooklyn [Work: Windows 11 case study]

Cloud and data: Azure Functions, Cosmos DB, MongoDB, Python [Project, Course: Bayou Alert; CS-340]

Languages: Python, Java, C++, JavaScript (course and project work)

PROJECTS

Bayou Alert: flood-warning monitoring dashboard | Independent project | Azure Functions, Cosmos DB, React, Mapbox

Owned the backend and cloud architecture: a scheduled Azure Function pulls live USGS flood-sensor data into Cosmos DB, and a React and Mapbox dashboard shows severity-graded alerts across Houston's bayou network.

Evidence: anderrowe.com/bayou-alert.html

EDUCATION

M.S. Cybersecurity and Information Assurance | Western Governors University

In progress (started Oct 2026), expected 2027

CompTIA CySA+ and PenTest+: in progress (WGU M.S. program).

B.S. Computer Science | Southern New Hampshire University

2026

- **CS-340 Client/Server Development (A-):** Python CRUD module over 5,000+ MongoDB records with a dashboard.

Evidence: anderrowe.com/grazioso-animal-rescue.html

- **CS-300 Data Structures and Algorithms (A):** C++ binary search tree course planner with a two-pass CSV loader.

Evidence: github.com/andre-rowe/CS300-Portfolio

- **CS-499 Capstone:** Modernized a Java application into a Django web application with user authentication.

RECOMMENDATIONS

"His pseudocode was organized into clear, readable sections that covered every requirement, his C++ code was well commented, and his approach to choosing the right algorithms and data structures was sound."

Dr. Sherri Maciosek, Information Systems Adjunct Faculty, SNHU (CS-300 instructor)

"Andre was always a great student to work with, and his follow-through with suggestions or advice was outstanding. Communication is such a key skill in today's world, and Andre excels at it."

Darren Brown, Academic Advisor, Southern New Hampshire University

"His ideas simplified the experience for the users while hitting all the business goals."

Ruhee Charania, Product Designer II, SpotHero (Pitch teammate, 2022)
